Compact System Shredder

Throughput*	80-170 kg/h
Number of knives	11 pieces
Main motor	12,5 HP
Hydraulic motor	0,75 kW
Installed powers	9,2 kW
Rotor diameter	240x400 mm
Shaves container	1100x700 mm
Lenght	1615 mm
Width	820 mm
Height	1400 mm
Weight	820 kg

The technical dates and the equipment enclosed in this brochure can be modified because of general patches without any advice notice.

*depends on the consistence of the worked material

Compact System Shredder

The rugged rotor bearings are a guarantee for smooth shredder running. The encapsulated bearing prevents material or other foreign bodies from penetrating the bearing housing.

The electric plant is corresponding the CE norm and with PLC control system for the hydraulic process.

The Compact System multi shaft shredders are adequate to hackle wood, chipboard, pallets, plastics, cardboard and carton.
The machine frame is realized in special steel sheets to garant a high durability and to reduce the noice arise as best as possible.
